REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor suggest, either alone or in combination all the limitations of the amended claims of the current invention. The prior art shows a first and a second master control unit providing control bits; a slave peripheral unit operable under the control of a resultant shared subset of the control bits provided by the multiple masters; a slave peripheral interface coupled between the master control units and the slave peripheral unit, the interface including a communication bus to carry the control bits; and a logic configuration block controlling the generation of said resultant shared subset of control bits for the slave peripheral unit according to a logical combination. The prior art does not show a logical configuration block controlling the generation of said resultant shared subset of control bits for the slave peripheral unit according to a logical combination dynamically set by configuration bits from the first master control unit, as claimed by independent claim 1. Independent claims 9, 13, 14, 16, 18 and 19 have similar limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nimesh G. Patel whose telephone number is 571-272-3640. The examiner can normally be reached on M-F, 8:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark H. Rinehart can be reached on 571-272-3632. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
